

# Highest sales and profit?

Using the **orders** table from **sample superstore** dataset and **heat map**,  
Determine which year and segment are marked as the **highest sales** and **highest profit**.

Segment	Order Date				Sales
	2014	2015	2016	2017	
Consumer	266,097	266,536	296,864	331,905	<div><div></div></div> 75,239331,905
Corporate	128,435	128,757	207,106	241,848	
Home Office	89,716	75,239	105,235	159,463
